Description

Set on an exceptionally beautiful and secluded plot of approximately 2,267 m², on the popular, leafy Konijnenlaan, is this detached, move-in-ready villa with a total living area of approximately 335 m² and a detached garage with space for several cars.

The villa is so centrally located that you can reach Amsterdam, Utrecht or Rotterdam in 40 minutes. The Meijendel dune area is within walking distance and the beach is a 15-minute cycle ride away.

There are also several schools and sports clubs in the immediate vicinity. This villa offers a wonderful combination of tranquillity, space and luxury in an absolutely prime location.

The villa was originally designed in 1967 by Ir. J. Kruger and built to a very high standard using top-quality materials. In 2022/2023, the villa was completely renovated and modernised, once again with an eye for detail and quality.

In 2024, a detached garage with a separate guest accommodation was built, after which the garden was landscaped to architectural specifications, seamlessly integrating the whole property.

The result: a stylish, spacious and highly practical villa offering optimal privacy.
